

FOR IMMEDIATE RELEASE

May 7, 2009

Alan Boniface joins distinguished panel for discussion on Legacies and Prospects for Building a Sustainable City

AIBC Annual Conference - Vancouver Convention Centre – Multi-density Panel: Legacies and Prospects for Building a Sustainable City

10:30 am – 12:00 pm

This panel session will discuss how sustainability can create legacy in a city. With Vancouver as an example, the panel will examine sustainability in urban strategies: the growth process; fighting urban sprawl; and promoting multi-density, compact neighbourhoods, efficient urban transit, and durable infrastructure. The panel will also provide a critical review of laneway housing and the Vancouver EcoDensity Planning Initiative.

Panelists:

Alan Boniface MAIBC MRAIC AIA

Ray Spaxman Hon. AIBC ARIBA MRTPI FCIP

Moderator:

Gordon Price, Director, Simon Fraser University City Program

About the AIBC 2009 Annual Conference

The AIBC Annual Conference is the biggest, most prestigious event of the year for British Columbia's architectural community, bringing together hundreds of delegates from across the province. It is a vibrant gathering of highly-skilled, well-educated and rigorously-trained professionals, dedicated to their personal careers, shared profession and public interest.
